Subject: **Provision of Gantt Chart and Critical Path Analysis**

The Minister for Economic Affairs, while chairing the meeting of National Coordination Committee on Foreign Funded Projects (NCC-FFP) on 10th November, 2021, has directed to display up-dated Gantt Chart along-with its Critical Path Analysis of each project in all NCC-FFP meetings. Without these two pre-requisites, the Committee will not consider the project. He further directed that the Gantt Chart should be made in proper software (not in MS Excel) and contain list of all activities along-with their start and finish dates, slippage (if any) and strategy to cover slippage so that the project can be completed within its allocated time and cost. While undertaking the Critical Path Analysis, the project authorities should clearly mention (a) which jobs or activities, of the many that comprise a project, are "critical" in their effect on total project time; and (b) how best to schedule all jobs in the project to meet a target date at minimum cost.

2. In compliance of Minister for Economic Affairs directions, it is, therefore, requested to please share up-dated Gantt Chart and Critical Path Analysis of each project (in hard and soft form) under your domain to NCC-FFP Secretariat on or before Friday, 19th November, 2021 so that the same can be made a part of NCC-FFP forthcoming meetings.
